	Web sites:
	Remove
/	
	Require server verification (https:) for all sites in this zone
	OK Cancel

Image 4

Write <u>https://ebank.stb.com.mk</u> and click Add.

Then click OK or Close, and the previous window will be displayed, where you need to click Apply and then OK, in order to save the changes in the settings of Explorer. Close the browser Internet Explorer, i.e. close all its active windows.

Install the component StbXmlSignatureInstall.msi from the web page of Stopanska Banka AD – Skopje, i.e. from the link: <u>http://www.stb.com.mk/ebank/download.htm</u>, to the link for E-banking, there is a link in menu Download for downloading the component StbXmlSignatureInstall.msi. After the quick installation, log in to the e-banking service and on the page for your accounts, go to the link Orders, ensure that additional components will be required to be installed which <u>should be permitted to be installed</u>, otherwise, continue to create an order and to sign it.

If your order is successfully created, then the settings and the installation of the required components are successfully completed, as well, otherwise, contact the E-banking unit on the following telephone number: (02)3216 970.
